Contract

## **LINC 144 - Steel Fibre Reinforced Concrete Technology Development**

Sellafield Limited

UK7: Contract details notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-067467

Procurement identifier (OCID): ocds-h6vhtk-05d18f

Published 22 October 2025, 1:12pm

### **Scope**

### **Reference**

C27340

### **Description**

Sellafield has a requirement to design and manufacture waste containers that are cost effective with respect to material, manufacturability, and infrastructure (throughput driven). These waste containers (WC) will be primarily used for long-term storage of solid Low-Level Waste (LLW) which are intended to be temporarily stored in CHILW (interim storage facility) and subsequently in a Geological Disposal Facility (GDF).

Steel Fibre Reinforced Concrete (SFRC) material is identified as a potential solution for a cost-effective waste container solution. Therefore, under the governance of the Manufactured Product Organisation (MPO), the Civil Structural & Architectural (CS&A) capability is carrying out a series of gated technical exercises to establish a calibrated material model which will enable the substantiation of the waste container's performance requirements via digital simulation.

## **Contract 1. Linc 144**

### **Supplier**

- [MCM Environmental Services Ltd](#)

### **Contract value**

- £150,763 excluding VAT
- £180,915.60 including VAT

Below the relevant threshold

### **Date signed**

14 October 2025

### **Contract dates**

- 15 October 2025 to 28 February 2026
- 4 months, 17 days

### **Main procurement category**
