Planning

Automated ballast profile Identification

NETWORK RAIL INFRASTRUCTURE LIMITED

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-068004

Procurement identifier (OCID): ocds-h6vhtk-05d2ea

Published 23 October 2025, 8:32pm

Scope

Reference

Automated ballast profile Identification

Description

Network Rail is seeking to understand market interest and readiness to deliver an automated solution for identifying ballast profile compliance across its track infrastructure.

Ballast condition is a key determinant of track stability and safety. Network Rail seeks a reliable, automated method to measure ballast profiles and identify areas of non-compliance to support

preventative maintenance and asset management.

This initiative supports Network Rail's goals for digital innovation, safety assurance, and predictive maintenance. It aligns with the broader programme of intelligent infrastructure and data-driven asset management
