Description

The Association of North East Councils Ltd trading as the North East Procurement Organisation (NEPO) is awarding a multi-contractor, multi-lot Framework for the provision of a highways surfacing works framework.

This Framework offers Contracting Authorities access to Suppliers providing a diverse range Highway Surfacing Works.

The works covered in the Framework have been split into 16 lots:

1 Asphaltic Concrete

2 Grouted Macadam

3 Surface Dressing

- 5 Hot Applied High Friction Surfacing
- 6 Cold Applied High Friction Surfacing
- 7 Slurry Seal of Footways
- 8 Slurry Seal / Micro Asphalt of Carriageways
- 9 Carriageway in Full Depth Recycling
- 10 Carriageway Re-tread
- 11 Captive Shot Blasting - Mechanical Retexturing
- 12 Hydro blasting - Surface Retexturing
- 13 Patching
- 14 Alternative Patching Methods: Hot Applied
- 15 Alternative Patching Methods: Cold Applied
- 16 Road Markings
- 17 Surface Preservation: Penetrative

The value of each lot is determined by dividing the total framework value by the number of lots. While individual lots may exceed their calculated value, the total will not surpass the overall framework value, which is distributed across multiple Contract Award Notices due to system issues.

The award of lots 10 to 17 are subject to a separate Contract Award Notice due to system issues.

Due to system issues, this notice is being placed as we are unable to amend notice 2025/S 000-063525 published on 9 October 2025 to include an additional supplier who was deemed successful within the standstill period. The standstill period has concluded. The purpose of this notice is to ensure framework compliance with a fully detailed award notice showing all successful suppliers.
