Changes to notice

This notice has been edited. The [previous version](#) is still available.

The change has been made due to the dates provided for site visits had the incorrect weekday against the date.

Scope

Reference

UKRI-5353

Description

The UK Astronomy Technology Centre (UKATC) require the fitout of an existing ground floor area within the Villas building on their Edinburgh Campus into a fully functioning ISO 6 cleanroom facility with ancillary support rooms.

The existing area is currently occupied by an electronics laboratory, which will be decommissioned, with all existing finishes and services removed as part of an enabling works package under a separate contract.

The new facility will be used to manufacture optical devices which require an ISO 6 cleanroom environment. The devices will be manufactured on the bed of a coordinate measuring machine (CMM). They have a mass which mandates the use of a material handling cart.

Total value (estimated)

- £600,000 excluding VAT
- £720,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 1 May 2026 to 31 October 2026
- 6 months

Contract locations

- UKM75 - Edinburgh, City of

Engagement

Engagement deadline

28 November 2025

Engagement process description

UKRI are preparing a tender for the fitout of an existing ground floor area within the Villas building on their Edinburgh Campus into a fully functioning ISO 6 cleanroom facility with ancillary support rooms. As part of our early market engagement, we are inviting interested suppliers to attend a site visit, and presentation to better understand the scope and context of works.
