Scope

Reference

TRG/0148

Description

TRG have a requirement for Quality Audits of the Compliance work streams. The Head of Compliance (Assurance) had identified the below areas which require QA services.

The lot structure will be as follows:

Lot 1 - Gas

Lot 2 - Electrical

Lot 3 - Legionella

Lot 4 - Asbestos

Lot 5 - Fire

Lot 6 - Lifting Equipment

All lots will cover the whole of the TRG stock profile, with national coverage.

Ours aims and objectives are to obtain:

Compliant Quality Audits (To ensure work that has been done is correct, sense check sample and data. Spot check and site visit checks) covering the following areas:

Gas & Electric – to cover new installations and remedial works

Legionella – to cover Legionella Risk Assessments, Routine monitoring and remedial works.

Asbestos – to cover Asbestos surveys and Asbestos removal (licenced and non licenced)

Fire – to cover Fire risk assessments, Fire remedial works and servicing of equipment and Installs.

Lifting Equipment – to cover the major lift repairs and low value repairs as well as servicing

Lot LOT-0001. Lot 1 - Gas

Description

Compliant Quality Audits - The purpose of these is to ensure that any works or services that have been carried out has been done correctly, to check samples of reports undertaken are accurate as well as completing spot checks and site visits. These will be

in line with the requirements of all applicable governing bodies, regulations, statutory and non-statutory guidance, TRGL 's Policies, management plans and protocols.

- Gas - to cover the installation of new boilers and remedial works as well as any other applicable works in this area such as repairs, servicing and PPM.

The purpose of a Quality Audit is for an independent 3rd party to assess and audit the works of others to ensure the correct continued compliance with documents, accreditation and standard, value for money and best practice.
