# Engagement

The engagement was carried out before this notice was published.

## Engagement process description

The commissioning team and voluntary sector partnership team undertook significant engagement, making sure to give all stakeholders and interested parties the opportunity to have their say and to contribute toward service outcomes and service qualities that will underpin future commissioning activities.

The team organised workshops led by expert facilitators who specialise in alliance commissioning, held bespoke forums and meetings including meetings with colleagues across the Division who have interests in the services and how they are run as many colleagues will refer citizens into these services.

The expert group attended a total of 109 individuals over 10 community visits, connecting with people all across Gwent, including people living with or supporting people living with dementia, mental health conditions, learning disabilities and neurodivergence. Some of the visits also included current service providers.
