## **Scope**

## **Reference**

DN783524

## **Description**

One of the largest customers of Westcombe Industries is Perkins Engines with a predicted over £1.3m sales forecast this financial year. The parts that are required by Perkins utilise specific machining and tooling for the precision parts, we currently have two machines to carry out this work. Unfortunately, due to the age of one of the machines it is becoming uneconomical to repair and resulting in increased overtime, as such it has been agreed to replace one of the machines.
