Changes to notice

This notice has been edited. The [previous version](#) is still available.

Tender submission deadline extended due to additional information & site visits required.

Scope

Reference

EPP0206

Description

Project Objective

The project aims to replace the existing end-of-life oil boiler system at Clacton Leisure Centre with a modern, low-carbon heating solution and and Installation of New Solar PV's. This is part of Tendring District Council's broader decarbonisation strategy and is supported by a successful PSDS Phase 4 grant application.

Scope of Works

Please review the specifications for the proposed works.

Key Considerations

The project is time-sensitive due to the failure of one of the existing boilers and the requirement to draw down most of Salix funding within the 2025/26 financial year.

All works must be completed and commissioned by April/May 2026 to meet grant conditions.

The project must be delivered with minimal disruption to leisure centre operations.

Total value (estimated)

- £1,200,000 excluding VAT
- £1,440,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 19 December 2025 to 30 November 2026
