Key performance indicators

Name	Description	Reporting frequency
DELIVERY	The target is 100% on time delivery, to the agreed delivery schedule (+/-5 calendar days to incorporate delivery goods receipting and UK public holidays). Failure to meet delivery times will attract the following abatements against the full order value of all Goods due to be delivered in the measured period. This will be measured for each Accounting Period.	1 months

Direct award justification

Prototypes and development

-Single supplier - intellectual property or exclusive rights

-Single supplier - technical reasons

The over-height valves have undergone significant development and modification since the original train build and are an integral part of the vehicle gauging system. Due to the particular supplier having intellectual property rights and or other exclusive rights, only that supplier can supply the goods required and there are no reasonable alternatives to

those goods.

The nature of these goods is that alternative component would remain incompatible with the existing system and or train.
