Lot constraints

Description of how multiple lots may be awarded:

All LOTs will be evaluated on a Cost / Quality basis.

Lot 1. Supply and installation of CCTV Equipment to Council owned Establishments

Description

- This LOT will have a maximum of six providers who will be required to quote for work on a lowest cost to specification mini competition basis based on the specification given by the Lot 5 provider following recommendations being approved by CCBC. Tender

documents to be made available once issued.

Same for all lots

CPV classifications, contract locations and contract dates are shown in the Scope section, because they are the same for all lots.

Lot 2. Maintenance and Servicing to Main Digital and Analogue CCTV systems, Mobile CCTV Van and Control Room

Description

This Lot will have a single provider who will be required to carry out the maintenance and servicing as per the tender specification.

The scope of the works for this contract includes comprehensive maintenance service with response to all service requests within 8 hours between the hours of 08.00 and 18.00, Monday to Saturday inclusive and rectification of faults or replacement of parts within 48 hours six days a week. The additional cost for the option of a seven day a week Comprehensive maintenance between the hours of 08.00 and 18.00 should also be given in the fixed price schedule. Tender documents to be made available once issued.

Same for all lots

CPV classifications, contract locations and contract dates are shown in the Scope section, because they are the same for all lots.

Lot 3. Maintenance and Servicing to existing Digital and Analogue CCTV systems for Council owned Establishments (not part of LOT 2)

Description

This Lot will have a single provider who will be required to carry out the maintenance and servicing as per the tender specification.

There are in excess of 100 CCBC sites including schools and depots that may require preventative maintenance. As the type and numbers of CCTV equipment is not known at each site.

It may be necessary to respond to faults before and after the preventative visit these will also be on a chargeable basis where appropriate. At the preventative visit it will be necessary for the contractor to carry out the tasks listed under the maintenance specification for camera sites, it is also a requirement to test if installed the full function of the HIK system and any communications that may be in place. Tender documents to be made available once issued.

Same for all lots

CPV classifications, contract locations and contract dates are shown in the Scope section, because they are the same for all lots.

Lot 4. Provision of CCTV Consultancy Services with regards to new and existing CCTV Installations and any other consultancy work as required

Description

This Lot will be awarded to a single bidder who will be required to provide detailed specifications and recommendations.

Providers shall have a wide range of experience in CCTV and related electronic security systems over a number of years particularly with local authorities. Experience should cover planning, design, costing, project management, certifying projects, commissioning, etc. Tender documents to be made available once issued.

Same for all lots

CPV classifications, contract locations and contract dates are shown in the Scope section, because they are the same for all lots.

Lot 5. Purchase of Wireless CCTV Equipment for Mobile Deployment and renewal of network charges for existing cameras.

Description

This Lot will be awarded to a single bidder who will be required to provide detailed specifications and recommendations.

To provide goods such as CCTV equipment and the renewal of network charges. Tender documents to be made available once issued.

Same for all lots
