### Scope

### Reference

25-098

### Description

10 Principal Inspections for structures on RMBC's highway network. The scope of principal inspection includes close examination of all accessible parts of a structure, typically a bridge or highway structure, where each inspectable component is examined within touching distance, as well as using appropriate access equipment and traffic management as necessary in order to assess the condition of the structure and identify potential defects. This inspection will be carried out in accordance with DMRB standard CS 450 Inspection of Highway Structures.
