### Scope

### Description

Domestic abuse is a serious issue, both nationally and locally. The complex nature of domestic abuse and the associated harm and inequalities it creates - including mental and physical ill health, homelessness and unemployment - has a drastic, negative and long-lasting impact upon the safety, health and wider life chances of families.

The Trust's vision is to build a Trust that provides excellent social work and family support for and with the city's most vulnerable children, young people and families.

The commissioned service will work with between 5 and 10 families affected by domestic abuse by providing intensive support over a period of up to two years. The expectation is that the Provider will work with the whole family including survivors, perpetrators, children and the wider family support network. The Provider will support in reducing domestic abuse in Birmingham and will ensure that the needs of children are being met in the home.

Families will be identified during mobilisation and, once consent has been sought, information will be shared with the successful Provider within the first week of the contract. It is expected that the Provider will review the shared information around suitability and work will begin with families within the third week of the contract.

The Provider is expected to engage in transparent and collaborative discussions with the Trust to determine the appropriate level of support for each family. Should it be assessed that a family does not require intensive intervention and the service is therefore deemed unsuitable, the Provider will promptly commence work with a new family.

The work will be evaluated for impact and outcomes for the family.
