Description

The MHRA is looking to procure a bespoke, custom-built negative pressure, Flexible Film Isolator (FFI) linked via a ventilated transfer junction to an existing class III MSC in our SAPO4 containment facility. The FFI shall run at negative pressure. The design must fit the space in the laboratory to enable ergonomic use. The FFI must be capable of maintaining an acceptable internal temperature during normal operation. The FFI must be sufficiently large enough and of reasonable construction to house equipment of ~470kg. There must be a design phase working with laboratory scientists and facility engineers to ensure product suitability.

Site visit for this Tender is a mandatory requirement.
