Section VI. Complementary information

VI.3) Additional information

This is a Provider Selection Regime (PSR) intention to award notice. The awarding of this contract is subject to the Health Care Services (Provider Selection Regime) Regulations 2023. For the avoidance of doubt, the provisions of the Procurement Act 2023 or the Public Contracts Regulations 2015 do not apply to this award.

The standstill period begins the day after the publication of this notice. Representations by providers must be made to the relevant authority by midnight at the end of the 21st November 2025. This contract has not yet formally been awarded; this notice serves as an intention to award a contract under the competitive process of the PSR.

Bidders should make any representations via a message in the Council's e-procurement portal (ProContract). Any other representations can be sent to sarah.fuller@cambridgeshire.gov.uk

Award decision makers:

Executive Director of Adults, Health and Commissioning. In consultation with the Chair and Vice-Chair of Adults and Health Committee. This governance was agreed at a meeting of the Committee held on the 19th June 2025.

No declared conflicts or potential conflicts of interest of individuals making the decision.

Rationale for the relative importance of the key criteria:

Quality and innovation (30%) - core to the success of the contract, so was given the highest weighting.

Value (15%) - there is a maximum budget for the service, and it is not expected that a provider could deliver the service for significantly below that budget. Therefore, value has been given a low-medium weighting. Incorporates contract price and other value considerations.

Integration, collaboration and service sustainability (25%) - is essential as there are a number of partners in the system that need to be involved to ensure good outcomes for service users. Sustainability is important, especially given anticipated system change and funding uncertainty.

Access, health inequalities and choice (20%) - medium weighting, recognising the importance of aspects such as local understanding, prevention and early intervention and co-morbidities.

Social value (10%) - has the lowest weighting but is enough to still have an impact on the score.

Rationale for choosing the provider: Change, Grow, Live achieved the highest total score once all of the key criteria had been evaluated.
