Reference

C393441

Description

The Agency is seeking to establish a working solution that supports the development of an Animal Management Database-a strategic investment for the MHRA. This system will enable real-time electronic record-keeping and reporting to strengthen compliance with ASPA, streamline operational workflows, and uphold high standards of animal welfare through integrated digital infrastructure and competency tracking.

MHRA seeks a partner to deliver a comprehensive solution that meets both immediate and long-term needs for animal facility management. The new system must support secure data capture, real-time tracking, and reporting across multiple sites, while ensuring compliance with Home Office licensing and audit standards. It should accommodate both high-frequency operational data, such as daily health checks and procedure logs, as well as long-term archival records, including historical logs, training certifications, and compliance documentation. Handling of sensitive data must be robust, with appropriate access controls and retention policies in place.

Total value (estimated)

- £300,000 excluding VAT
- £360,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 29 January 2026 to 28 January 2029
- Possible extension to 28 January 2031
- 5 years

Description of possible extension:

Two annual options for the Agency to extend the Contract Term by twelve months. If both Options are exercised, this will mean an estimated Contract End Date of 28/01/2031.

Options

The right to additional purchases while the contract is valid.

Two annual options for the Agency to extend the Contract Term by twelve months. If both Options are exercised, this will mean an estimated Contract End Date of 28/01/2031.
