A SUBSEQUENT CONTRACT AWARD NOTICE (INTENTION TO AWARD - F03) WILL BE PUBLISHED FOLLOWING THIS NOTICE.

The pilot will be run for an 18-month period, from 1 December 2025 - 31 March 2027 (estimated).

The planned pilot will be delivered through a Personal Dental Services Plus Agreement via a sessional model. A session will equate to 3.5 hours and it is anticipated that 2 patient appointments will be made in an hour, which equates to approximately 7 patients per session. There is no maximum patient limit. This would be for the service to manage capacity and to maximise patient access within clinical governance.

The number of patients seen in a session will be dependent upon their treatment complexity, following clinical assessment by the dentist/Dental Clinical Professional.

The model focuses on the integration of general medical and dental services for vulnerable patients, to further improve access to dental services in an area of high need and to tackle health inequalities by creating an alliance between a Primary Medical Provider that holds a General Medical Services Contract and a Dental Provider that can hold an NHS Dental Contract in Peterborough.

The Contracting Authority's assessment of each potential provider's submission has taken into account the basic selection criteria and the following key criteria:

- Quality and innovation;
- Value;
- Integration, collaboration and service sustainability;
- Improving access, reducing health inequalities and facilitating choice; and
