## Section IV. Procedure

### IV.1) Description

#### IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
  - absence of competition for technical reasons

Explanation:

Family Fund Trading (trading as Family Fund Business Services) is the only known provider with the technical capability to deliver the full scope of grant fulfilment services as a single, integrated solution. No other provider offers a comparable service that combines referral handling, procurement, distribution, payments and reporting within a unified, audit-compliant platform.

Alternative delivery models would require multiple providers and contracts, resulting in technical fragmentation, reduced accountability, and increased risk to service quality and data security. Replicating the solution through separate contracts or in-house arrangements would introduce significant operational and technical inefficiencies, undermine auditability, and delay delivery of urgent support to vulnerable residents.

Therefore, there is no reasonable technical substitute capable of delivering the service to the required standard, and the use of Regulation 32(2)(b)(ii) is justified.
