Main procurement category

Goods

CPV classifications

- 30211200 - Mainframe hardware

Contract locations

- UK - United Kingdom

Other information

Description of risks to contract performance

None

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Special regime

Utilities

Direct award justification

- Single supplier - intellectual property or exclusive rights
- Single supplier - technical reasons

This hardware is being used to upgrade Network Rails private cloud, which is delivered by

a particular hyperscaler and would be technically and commercially disproportionate to re-provision the entire element of private cloud. There are also further contractual licence considerations, where NR is not able to secure third party software support without creating technical and commercial issues.

Supplier
