Engagement process description

The West Yorkshire Combined Authority (the CA) intends to procure a service provider to acquire, analyse and generate reports of traffic congestion in West Yorkshire, initially for one year, with the possibility of two optional one-year extensions, making a total possible contract duration of three years. The contract requires the provision of highway congestion data to cover the years, 2019, 2023 – 2028 across the major and minor road networks in West Yorkshire to provide the CA with granular insight into historical congestion trends along the highway network in West Yorkshire. The data is required to help with traffic management and planning; policy and investment decision-making and programme and scheme monitoring and evaluation. According to the DfT's road classification standard. The roads under scope within the West Yorkshire road network are: i. A Roads ii. B Roads iii. Unclassified unnumbered/Minor roads/C Roads iv. Unclassified – local roads intended for local traffic Contract Duration The contract is estimated to start in April 2026 for an initial term of one year with two optional one-year extensions up to March 2029, making a total of three years (maximum period).

Preliminary Market Engagement We are inviting Consultants and Data Providers that have interest in providing these services, to attend a briefing session. Please respond to this Preliminary Market Engagement (PME) Notice to express your interest.
