Scope

Reference

CR2025/26/087

Description

Supply of band dendrometers and other supplementary sensors & instrumentation together with associated cabling, power supply, data recording, data storage and data transmission and remote monitoring equipment and ancillaries, developed, configured and deployed as a bespoke, prototype 'whole system' package to the purchaser's specification for each of five experimental sites across England and Scotland.

Contract 1

Supplier

- Environmental Measuring Systems s.r.o.

Contract value

- 300000 EUR including VAT

Above the relevant threshold

Earliest date the contract will be signed

26 November 2025

Contract dates (estimated)

- 26 November 2025 to 28 February 2026
- 3 months, 5 days

Main procurement category

Goods

CPV classifications

- 38300000 - Measuring instruments

- 38400000 - Instruments for checking physical characteristics

Contract locations

- UKC - North East (England)
- UKD - North West (England)
- UKE - Yorkshire and the Humber
- UKF - East Midlands (England)
- UKG - West Midlands (England)
- UKH - East of England
- UKI - London
- UKJ - South East (England)
- UKK - South West (England)
- UKM - Scotland

Other information

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Direct award justification

- Prototypes and development
- Single supplier - technical reasons

The equipment is being customised and configured as a 'whole system' to the purchaser's specification to meet individual experimental site requirements

The dendrometer at the core of the system is a proven product already in use in the organisation and in other European research organisations with whom the purchaser collaborates, and use of the same [compatible] equipment facilitates comparability of research results. That dendrometer is manufactured by the supplier and the supplier is uniquely positioned to be able to adapt and incorporate that product with other equipment to produce the system required.
