Scope

Description

The University of York is pleased to invite tenders for the provision of a Continuous Flow Reactor System in accordance with this Invitation to Tender (ITT). This ITT is being undertaken on behalf of the University's Chemistry Department. An integrated system is required for exploring a variety of chemistries in flow, including polymer synthesis, biocatalysis, gel-flow, peptide synthesis, catalysis, electrochemistry. The scope of

services is to include the delivery and installation of the system, training and ongoing support and maintenance. Full details can be obtained by registering with the University's tender portal and following the bidding instructions to access the invitation to tender (ITT) documents - see Submission address and any special instructions.
