Supplies

II.1.4) Short description

Defence Equipment and Support (DE&S) are a bespoke trading entity and are an arm's length body of the Ministry of Defence (MOD). We manage a vast range of complex projects to buy and support all the equipment and services that the Royal Navy, British Army and Royal Air Force need to operate effectively. We work closely with industry, including through partnering agreements and private finance initiatives. More can be seen at MOD website –

<https://www.gov.uk/government/organisations/defence-equipment-and-support>

The Specialist Vehicles and Uncrewed Land Systems (SVULS) Team, part of the UK MOD intends to award a multi-supplier Framework Agreement for the procurement of MOD Protected and Modified Civilian Profile Vehicles (PaMCPV).

*For Transparency Purposes Only - Not a New Opportunity"

Details of the original opportunity can be found at <https://www.find-tender.service.gov.uk/Notice/003740-2025>

Contract Number 711646450

The MOD requires protected mobility vehicles for many of its tasks. This requirement is often met by bespoke overt military profile vehicles. However, there are situations where this is unsuitable due to the profile or nature of the task. Therefore, the MOD requires Protected and Modified Civilian Profile Vehicles (PaMCPV) to provide protected and discreet mobility.

A Protected and Modified Civilian Profile Vehicle (PaMCPV) at its simplest level is defined as a commercial off the shelf (COTS) vehicle that has been modified to provide a degree of protection and have the potential to integrate mission systems. One of example of this would be a Civilian Armoured Vehicle (CAV). PaMCPV could include cars, 4x4, small vans or minibuses, and would provide discreet protected mobility on operations across the globe and in the UK.

The specific requirements will be defined at each call-off stage. Examples of potential modifications include but not limited to:

- Integrated blast and ballistic protection. The protection levels and coverage will be defined at each call off stage.
- The integration of specified mission systems. This could include Electronic Counter Measures (ECM), communication systems, weapon mounts.
- Modifying the base vehicle to meet mobility performance and capacity requirements of individual call-offs.

The enduring in-service support for the PaMCPV procurement Framework Agreement will be out of the scope of this contract.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: Yes

Description of options

Contract options are in batches of 12 months (1 year) and there are two 1 year options. (2 x1 year)
