Unawarded contract

This contract will not be signed.

Date of decision not to sign contract

19 November 2025

Reason for not signing contract

The client has taken the decision to terminate this project as it became apparent to them during the process that the framework specification and criteria as published was not going to meet their requirements.

However, they are looking to publish a new, updated project, CPU 8051, the week commencing 24th November.

This framework will consist of 2 lots, ensuring it is more advantageous for NCC and will give the client more flexibility and scope.
