23 February 2026

Award criteria

Name	Description	Type
Price per quality point	Total quality score as further described in the tender pack	Quality
Total Tendered Price	Contract charges as further described in the tender pack	Price

Weighting description

Final tenders will be evaluated using a Price Per Quality Point (PPQP) model. This approach is designed to identify the tender that best meets the Department's requirements in relation to both quality and price. The PPQP model calculates a ratio by dividing the modelled tender price by the total weighted quality score. Full details of the evaluation methodology, including scoring and weightings, is provided in the tender documentation.
