Scope

Description

This project will install a free, inclusive outdoor gym directly onto a shingle beach on Walmer seafront.

The quote must include the supply and installation, (including all groundworks) of all equipment and of an appropriate non-slip safety surface and base design. All products supplied must confirm to BE EN 16630:2015. Our ideal outdoor gym will contain a selection of resistance, cardio, cross training and balance/mobility equipment. A list of preferred equipment is set out within the detailed specification Appendix 2 of the ITQ documents.

Award criteria

The detailed methodology is set out in the ITQ Instruction Document - Section 2.

Offers will be evaluated on the prospective contractor submitting the most economically advantageous quotation, based on quality. The overall assessment ratio is 90% quality, 10% cost.

A panel will evaluate each response to a set of technical questions , each of which will be weighted and each response will be scored out of a maximum of 5 points.

The details of the technical questions and the scoring methodology are set out in the ITQ Instruction Document section 2.
