## **Earliest date the contract will be signed**

4 January 2026

## **Contract dates (estimated)**

- 1 April 2026 to 31 March 2028
- Possible extension to 31 March 2030
- 4 years

Description of possible extension:

Option to extend 2 x 1 year options

## **Main procurement category**

Services

## **CPV classifications**

- 72260000 - Software-related services

---

## Other information

### Conflicts assessment prepared/revised

Yes

---

## Procedure

### Procedure type

Direct award

### Direct award justification

Single supplier - technical reasons

As part of the UK's nuclear decommissioning programme, Nuclear Restoration Services (NRS) will begin taking ownership of assets and the responsibility for the Advanced Gas-Cooled Reactor (AGR) sites from EDF Energy Nuclear Generation Limited (EDF). This transition, starting with Hunterston B in spring 2026, marks a key milestone in ensuring the continued safe, secure and cost-effective decommissioning of the UK's nuclear legacy.

NRS is committed to transparency and collaboration throughout this transfer process, working closely with EDF, regulators and stakeholders to deliver a seamless transfer whilst maintaining the highest standards of regulatory, safety and environmental compliance. This is a direct award for the purposes of Procurement Act 2023 and is being made pursuant to Paragraph 6 of Schedule 5 to the Procurement Act 2023

NRS considers Paragraph 6 applies as the services provided by EDF Energy Nuclear Generation Limited are critical to the ongoing operation of Hunterston B and it would create significant technical difficulties and unacceptable regulatory risks to NRS for another supplier to supply the services at this time.

EDF Energy Nuclear Generation Limited is neither an excluded or excludable supplier.

A Contract Award Notice and Contract Details Notice will follow in accordance with Procurement Act 2023.
