Description

CPI is seeking qualified and experienced suppliers to be appointed to a framework agreement for the supply of gas manifold regulators to our facilities. We are looking for suppliers who can demonstrate technical competence, a strong track record of delivery, and a commitment to safety, quality, and sustainability.

This requirement relates to the replacement of all single-stage gas regulators across the building, in line with statutory regulations. These regulators are installed in every laboratory and plant room, with approximately 250 units currently in operation. They support various gas lines, including Oxygen, Nitrogen, Carbon Dioxide, and Carbon Dioxide 5%.

The existing regulators have exceeded their recommended 10-year lifecycle, as specified in CP039. Continued use beyond this period increases the risk of failure and poses safety risks to personnel, particularly in laboratory environments.

Commercial tool

Establishes a framework

Total value (estimated)

- £300,000 excluding VAT
- £360,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 6 January 2026 to 5 January 2030
- 4 years

Main procurement category

Goods

CPV classifications

- 38000000 - Laboratory, optical and precision equipments (excl. glasses)
- 38420000 - Instruments for measuring flow, level and pressure of liquids and gases
- 38421000 - Flow-measuring equipment
- 38422000 - Level-measuring equipment
- 38432100 - Gas-analysis apparatus

Unlimited

Maximum percentage fee charged to suppliers

0%

Framework operation description

CPI will establish a Multi supplier framework agreement, against which we will reserve the right to direct award without further competition.

Suppliers will be in a ranked order of 1st, 2nd and 3rd etc. according to their scores against the evaluation criteria set out below.

Pricing should be held throughout the duration of the framework. Should pricing not be held for the entirety of the framework duration, CPI reserves the right to conduct a mini-competition as per the process detailed below and rerank in line with the mini competition criteria.

As and when we require goods we will confirm our requirements with the preferred (ranked 1st) supplier and place a Purchase Order. In the event that the 1st placed supplier cannot provide the goods required or meet the delivery timescale, the order will be placed with the 2nd placed supplier on the list in the same manner. Should the 2nd placed supplier be unable to provide the goods required or meet the delivery timescale, the order will be placed with the 3rd placed supplier in the same manner, with this process continued for any further members on the relevant lot until the goods have been provided. Where no panel members are able to meet our requirements, CPI reserves the right to award outside of this framework.

Where the 1st placed supplier has confirmed prior to a quote request (during the framework period) that they are unable to provide the specific requirement, either through their tender submission or through previous failed quote requests, then CPI reserves the

right to directly approach the highest ranked supplier who has confirmed their ability to provide the specific requirement. Where availability and access to items changes, and previously unavailable products are made available, suppliers should notify CPI to enable consideration for the next requirement opportunity.

Award method when using the framework

Either with or without competition

Contracting authorities that may use the framework

Establishing party only

Submission

Tender submission deadline

16 December 2025, 11:59pm

Submission address and any special instructions

Your response must be electronically uploaded to the website as stated in the link below only, to arrive in good time, no later than the Bid Return Date:

12 noon Tuesday, 16 December 2025
