Engagement process description

The NHS Emergency Capabilities Unit (ECU) is initiating a pre-market engagement process with suppliers and manufacturers to support the development of a comprehensive specification for atmospheric monitoring devices. These devices will be deployed within Ambulance Services across England. Your feedback will help us:

- Refine and clarify technical and operational requirements
- Identify opportunities for innovation
- Understand potential challenges and barriers
- Facilitate open and transparent dialogue with the market

A questionnaire published requires short, factual responses which will assist with information gathering for the development of the requirements and the specification
