Scope

Description

West Yorkshire Fire and Rescue Service (WYFRS) is seeking a suitable supplier to deliver flexible, high-quality training for our Digital, Data and Technology (DDaT) team.

The training solution must allow staff to access and exit courses as needed, ensuring operational priorities can always take precedence. Approximately 40 staff members will require training annually.

WYFRS require online access to technical IT content, including structured learning pathways, with coverage across key areas such as but not to be limited to:

Cloud technologies (e.g., Azure, AWS), Cybersecurity and Information Assurance, Software Development and Programming (e.g., Python, .NET, Java), Data Analytics and Business Intelligence, DevOps and Automation, Networking and Infrastructure, IT Service Management and Governance.

In addition, the solution should provide:

Manager dashboards for tracking progress and engagement, Reporting capabilities for performance and compliance, and Sandbox environments for hands-on practice and

experimentation.

The contract duration is currently undefined but is expected to run for a minimum of three years.

Suppliers who wish to express an interest in this project should email their expression of interest to tenders@westyorkshire.gov.uk . Please provide contact details, summary of your services and a link to your website.
