Scope

Description

We are pleased to announce our intention to develop a Weight Wellness & Activity Service aimed at providing comprehensive support for individuals seeking to achieve and maintain a healthier weight. This service will include Tier 1 & 2 Weight Management Services as well as cater to those who require more intensive intervention than Tier 1 services, including personalised dietary plans, physical activity guidance, behavioural therapy, and regular monitoring and support to ensure sustained progress.

The objective is to empower individuals with the tools and knowledge necessary to manage their weight effectively, improve their overall health, and enhance their quality of life. We are considering various approaches and service models that demonstrate the capability to deliver high-quality, evidence-based weight management solutions. This initiative aims to foster healthier communities through effective weight management programs tailored to the needs of our population.
