ATAMIS

Tenders may be submitted electronically

No

Languages that may be used for submission

English

Award decision date (estimated)

19 January 2026

Award criteria

Name	Description	Type	Weighting
Technical	ITT documents provided	Quality	60.00%

Name	Description	Type	Weighting
Commercial	ITT documents provided	Cost	30.00%
Social Value	ITT documents provided	Quality	10.00%

Other information

Payment terms

The Commercial Model that will be utilised under the Contract is Option E (Cost reimbursable contract). This was deemed the most appropriate option, proportionate to the value of the Contract and the allocation of pricing risk, whilst eliminating alternative options including Option A (Priced contract with activity schedule) and even an Option C (Target contract with activity schedule), where the quantities of the required activities are not defined well enough within the specification for the tenderer to provide fixed activity prices.

The pricing model for tendering will comprise a model scenario based forecast where the various fee percentages are incorporated to provide a competitive total for assessment.

Description of risks to contract performance

There is a risk of unknown urgent repairs to steelwork that need to be carried out when opened for inspection.

Conflicts assessment prepared/revised

Yes
