Description

Connected Places Catapult are working with Ministry of Environment, Urbanisation, and Climate Change (MOEUCC) to assess potential projects to implement BIM on as a pilot project to support the national level adoption of BIM. The assessment will identify a suitable pilot project which will require support to adopt BIM over the next few months. The purpose of the pilot project is to build capacity within the Turkish supply chain as well as to create a case study for further BIM adoption within similar projects. Connected Places Catapult require a UK supplier to provide technical assistance to the project team, helping them to identify the benefits of BIM and then apply new BIM based processes and procedures to realise these benefits.
