Sellafield Limited

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-077976

Procurement identifier (OCID): ocids-h6vhtk-051549 ([view related notices](#))

Published 28 November 2025, 10:27am

Changes to notice

This notice has been edited. The [previous version](#) is still available.

Engagement deadline has been extended to Friday 5th December 2025 at 12pm.

A preliminary market engagement session is scheduled for Thursday 4th December 2025 at 10:00am. During this session, the presentation originally delivered at the Supply Chain Forum in October 2025 will be shared, as included in the accompanying documents available to view at any time.

Interested participants are asked to register under Atamis record C28373 and submit a message via the portal to confirm their attendance and provide a contact email for the Microsoft Teams link to be sent to. Please express interest by 9:00am on Thursday 4th December to ensure the link is received with sufficient time. Once interest has been confirmed, the Microsoft Teams link will be issued.

Participation is restricted to one representative per company.

Description

Enabling Innovation Framework 5

The EIF 5 Scope is primarily around problem definition and framing, studies, developing functional requirements, preparing business cases and interventions for which the categories, outputs and deliverables.

The Sellafield Ltd Corporate Strategy and Strategy Management Framework provide broader organisational context and detail around the purpose and challenges of the value streams (Retrievals, Remediation, Spent Fuel Management, Special Nuclear Materials and Integrated Waste Management) and the business critical enablers.

In summary the scope of the EIF encompasses:

- Support to problem framing: establishing clarity over needs and priorities and providing technical / digital support;
- Help in establishing project purpose, principles, roles and tasks before the Detail is decided
- Problem definition: help in translating service requirements into clear functional / technical / digital requirements;
- Support to studies;
- Support for problem solving and recovery of stalled projects through enabling services or focussed technical and digital support / solutions;
- Support to establishing correct measures, metrics and targets for success;

- Improving understanding of supply chain capability;
- Supporting challenge to unnecessarily bespoke solutions, application of unnecessary standards and “specialist” requirements through enabling services or focussed technical / digital solutions;
- Support to constructive challenge of ongoing requirements and cost estimates;
- Relationship based: allowing the supply chain to offer up new technologies and innovations, which have not been solicited by a Sellafield Ltd client that may bring significant return on investment.

We plan to issue ten framework agreements under one lot, each lasting four years. The framework agreements will be based on Sellafield standard terms and conditions.
