Description

At Karbon we build, manage and look after affordable homes for people across the North. Our footprint covers the North East of England and Yorkshire, with almost 35,000 homes across diverse communities. The purpose of this invitation to tender is for Karbon Homes to appoint experienced and competent Contractors to a framework for the supply and fitting of floor coverings. The Framework Agreement will be for an initial 24-month period, with an option to extend for a further 24-month period. Tenders must be submitted using our e-Sourcing portal.

Framework operation description

In the circumstance where more than one supplier has been awarded a place in a particular lot, suppliers will be ranked by their tender submission score according to the evaluation criteria set out in the Tender. The supplier with the highest score will be ranked first, the second highest ranked second and so on.

Work will be allocated and orders placed through the following process:

- a. The Group will identify from the framework the highest ranked supplier for the required work.
- b. The Group will contact the identified supplier with regards to capacity for the date, timescale and nature of the work required.
- c. The Group will place an order with the supplier.
- d. If the highest ranked Supplier is unable to fulfil the Group's requirements, then the Group will approach the next highest ranked supplier. This process will be cascaded down the ranks until the Group's requirements are met.

Pricing will be based on a Supplier's tendered rates.

By exception the Groups reserves the right to access this Framework by mini competition.
