Scope

Description

The CyberFirst schools and colleges programme operates in 6 English regions and all 3 Home Nations. In 2026 the programme will transition to be part of TechFirst, a scaled up programme that will reach every region and will support skills across all frontier technologies, not just cyber. TechFirst will be very much built on CyberFirst, using the same tried and tested methodologies and infrastructure. DSIT wants to test how well this infrastructure is equipped for this transition.

Direct award

Direct award justification

Additional or repeat goods, services or works - extension or partial replacement

This is a targeted intervention in the West Midlands and there are few organisations who could provide the necessary support in the timeline required. A contract is necessary given the clear and time-bound outputs and the lack of any alternative delivery routes.
