Description

Two new vehicle lifts have been installed in Greenbank Garage Newry, Mourne and Down District Council, however these cannot currently be connected due to insufficient supply capacity. Each lift requires a 32A 400V 3-phase supply, whereas the existing installation provides only a single 16A 400V outlet that previously servicing the old lift.

The existing distribution boards within the Garage contain spare ways, but the circuit breakers required to support new or modified circuits are now obsolete. As such, replacement of the existing distribution boards and associated switchgear is required to facilitate the new lift supplies and to ensure compliance with current electrical standards. The two vehicle lifts are the only items that are provided. The rest of the materials are to be provided by the supplier.

Also al outstanding remedial items identified within the Electrical Installation Condition
