Tender

Bathing Adaptations Rotational Framework 2026

North Somerset Council

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-078988

Procurement identifier (OCID): ocds-h6vhtk-054310

Published 2 December 2025, 2:46pm

Changes to notice

This notice has been edited. The [previous version](#) is still available.

Call-Offs awarded without competition.

Scope

Description

North Somerset Council seeking to appoint suitably qualified providers to a Rotational Framework to deliver bathing adaptations works in support of the Disabled Facilities Grant

programme. The Council assists elderly and disabled residents to remain independent in their homes through major adaptations which in the main provide access e.g. stairlifts, and bathing adaptations e.g. level access showers.

The framework is due to commence on 1st April 2026 and will expire on 31st March 2030. This Framework will operate rotationally, alternating providers who receive offers of work (with a maximum of 8 providers being allocated a place on the Framework). The majority of jobs will be of a similar scope/value. Each supplier on the framework will be required to commit to delivering a minimum of 14 jobs per year.

Price will be set at the framework stage (suppliers will be rotated; therefore, further competitions will not be used). Suppliers are asked to price against the Schedule of Rates. The total price submissions will be ranked in order from lowest to highest with a maximum of 8 suppliers being awarded a place on the framework.

The average price will be the rate paid for those items subject to agreed minor changes for each specific job.

Commercial tool

Establishes a framework

Total value (estimated)

- £6,240,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 1 April 2026 to 31 March 2030
- 4 years

Options

The right to additional purchases while the contract is valid.

Year on year spend over term of the framework cannot be accurately estimated to precise figures but is likely to increase year on year due to predicted increases in inflation, employee wage increases and increases in demand due to changing population demographics.
