II.2.4) Description of the procurement at the time of conclusion of the contract:

The geographic scope of the DPS is UK-wide. Its focus is to target the build of gigabit-capable broadband infrastructure in the final 20% (f20) of the country that is not commercially viable for the market to design, build and operate without government intervention. Following successful admission of Suppliers onto the DPS, Suppliers can tender for Call-Off Contracts. Each Call-Off Contract will vary in terms of number of premises covered, value and geographic coverage. BDUK currently expects the average Call-Off Contract size to be around 1,000 to 8,000 premises.

The DPS will be used by BDUK and will be available to the UK's Devolved Administrations to award Call-Off Contracts. Devolved Administrations refers to the National Assembly for Wales; the Scottish Government; and the Northern Ireland Assembly and Executive Committee.

The UK Government has confirmed that approximately £5 billion will be allocated to target the final 20% (f20), the hardest to reach parts of the UK. BDUK will be targeting its market intervention in these areas of the UK via a programme to subsidise the design, build and operation of gigabit-capable Supplier networks providing long-term, sustainable availability of wholesale gigabit broadband services in the hardest to reach parts of the UK. Suppliers must be qualified onto the DPS to be eligible to bid for Call-Off Contracts.

This procurement is for the award of a Dynamic Purchasing System Contract – Shropshire 25.02. It concerns the delivery of a gigabit-capable network for an estimated total number of 12,277 premises. BDUK intends to make available £24,042,000 of public funding available for this contract.

Only those Suppliers successfully admitted onto the DPS are eligible to bid on this ITT.

The provision of subsidy will be provided in accordance with the UK subsidy control regime.

VII.1.4) Description of the procurement:

The Gigabit Infrastructure Subsidy programme is a government programme aimed to

support the build of gigabit-capable broadband infrastructure in the areas of the UK which are unlikely to attract commercial investment for gigabit-capable broadband infrastructure within a reasonable timeframe, if at all, referred to as the final 20% (f20). Building Digital UK (BDUK, an Executive agency of DCMS) will be targeting its market intervention in these areas of the UK via this subsidy award programme, to subsidise the build of gigabit-capable networks providing long-term, sustainable availability of wholesale gigabit broadband services in the hardest to reach parts of the UK. The Gigabit Infrastructure Subsidy programme builds on the success of existing programmes being delivered by BDUK to deliver gigabit-capable networks across the UK. It is envisaged this programme will last for up to 9 years and award contracts throughout that period.

VII.1.5) Duration of the contract, framework agreement, dynamic purchasing system or concession

Start date

19 April 2023

End date

9 October 2032

In the case of framework agreements, provide justification for any duration exceeding 4 years:

The contract is divided into three stages (Stage 1 design six months, Stage 2 build four years and Stage 3 Monitor and Clawback seven years). Stage 2 has been reduced due to descope.

VII.1.6) Information on value of the contract/lot/concession (excluding VAT)

Total value of the contract/lot/concession:

£6,035,288

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Error in contract value published in previous F20 (2025/S 000-066689, published 20/10/2025) identified and corrected. As communicated in the notice published on 20/10, the awarded premises have decreased to a total of 3,409.

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

This F20 corrects the error in contract value published on 20/10 ONLY. As described in the notice published on 20/10, there was a decrease in contract value and premises due to a change in the supplier's investment.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £24,036,217

Total contract value after the modifications

Value excluding VAT: £6,035,288
