Description

Anglian Water Services Limited intends to establish a Major Infrastructure Delivery Framework agreement to support the delivery of its capital investment in the East of England, necessary for adaptations to climate change and anticipated population growth.

This Major Infrastructure Delivery Framework will provide for an integrated and collaborative partner, and enable flexible call-offs to deliver selected programmes and projects successfully, achieving outcomes to enable Anglian Water to meet the needs of our customers, stakeholders, shareholders, investors and the specific outcomes required by the regulator. While achieving the highest levels of safety, health and wellbeing in the delivery of its works.

The Major Infrastructure Delivery Framework will set out the broad scope of capabilities that may be required over the life of the agreement, being that of early contractor

involvement (ECI) advisory services, design, construction and CDM (Principal Designer and Principal Contractor) duties. Initial projects to be delivered by this framework include programmes of work related to Coastal Waters Improvements Works and will consist of grey and green civils work, process technology and storage.

All dates provided are estimates - subject to further development.

Commercial tool

Establishes a framework

Total value (estimated)

- £1,500,000,000 excluding VAT
- £1,800,000,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 28 July 2026 to 27 July 2031

Tenders may be submitted electronically

Yes

Languages that may be used for submission

English

Award decision date (estimated)

3 July 2026

Procedure

Procedure type

Competitive flexible procedure

Special regime

Utilities

Competitive flexible procedure description

A staged procurement exercise will comprise:

A Request for Information (RFI) to seek information by means of targeted questions to understand capability, capacity and experience related to the different aspects of Anglian Water's requirements.

Responses to the RFI will be evaluated and shortlisted in accordance with the criteria set out within the RFI documentation, and only suppliers that are shortlisted will be invited to submit a Request for Proposal (RFP).

The RFP is to be used to evaluate and understand how suppliers intend to deliver the requirements to Anglian Water and the associated costs. This stage may include interviews and site sites, as well as a written response.

RFP elements will be evaluated in accordance with the criteria set out within the RFP documentation to determine an overall RFP evaluation score.

Anglian Water's decision to award will be made on the basis of the most advantageous tender.

Full details of the process that will be followed are provided within the RFI and RFP documents.

Reduced tendering period

Yes

Qualifying planned procurement notice - minimum 10 days
