## Scope

## Reference

PR-4808

## Description

This Framework provides access to laboratory automation equipment for anatomical pathology across five lots: tissue embedding, block facing, slide preparation, storage systems, and block transportation.

## Commercial tool

Establishes an open framework

A series of frameworks with substantially the same terms. Awarded suppliers are carried over and new suppliers can bid.

## **Lot 1. Automated Tissue Embedding Systems**

### **Description**

Provision of a system that is able to automate the process of embedding tissue specimens in paraffin to create tissue blocks and all associated services.

---

## **Lot 2. Tissue Block Facing Systems**

### **Description**

Provision of a system that is able to provide automated facing of formalin-fixed paraffin-embedded (FFPE) tissue blocks and all associated services.

---

## **Lot 3. Automated Slide Preparation Systems**

### **Description**

Provision of a system that is able to automate the process of sectioning paraffin blocks and mounting tissue sections onto glass slides and all associated services.

---

## **Lot 4. Storage and Archiving Systems (for both blocks and slides)**

## **Description**

Provision of a system that is able to provide organised storage and retrieval of histological specimens, including both FFPE tissue blocks and microscope slides and all associated services.

---

## **Lot 5. Block Transportation Systems**

### **Description**

Provision of a system that is able to automate the transport of FFPE blocks between laboratory workstations including embedding, microtomy, and storage areas and all associated services.

---

## **Lot 6. Aggregated Lot**

### **Description**

Aggregation of Lot option (1-5) is designed to accommodate suppliers who can offer more than one lot service provision, combining them under a single agreement. This approach ensures that the Participating Authorities have access to a variety of services either from a single supplier or a cooperative of suppliers, enhancing the convenience and adapting a solution to their needs.

---

## **Framework**

### **Open framework scheme end date (estimated)**

6 November 2033

## **Maximum percentage fee charged to suppliers**

3%

## **Framework operation description**

Commencement Date of first Framework.

Duration of first framework: 2 years.
