A maintenance contract - Service Support Agreements and Service Products - 240416GB01780497MC - QIASymphony.

QIASymphony systems are a versatile nucleic acid purification instrument providing high-quality nucleic acids compatible with with most common downstream assay technologies. Kits and protocol guarantees best purification efficiency and nucleic acid quality and increases laboratory capabilities/flexibility with a single instrument.

These enable the maintenance and any repairs needed for our 3 QIASymphony analysers and RGQ analysers to be completed. These enable a range of PCR tests to be completed for bacteria
