Tender

Suite of equipment to both characterise and generate EMF

Health and Safety Executive

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-080088

Procurement identifier (OCID): ocds-h6vhtk-05ef86

Published 5 December 2025, 11:59am

Scope

Description

The Science Division (SD) of the Health and Safety Executive invites competitive quotations for the supply of the following items to their Laboratory located at Harpur Hill, Buxton SK17 9JN.

HSE-SD is looking to acquire a suite of EMF equipment. The suite will need to enable the measurement of a range of common emitters (WiFi, phones, Bluetooth, inductive chargers etc), and give a profile of both frequency and power. HSE is then looking to be able to generate an RF emission (similar to that measured) aimed at a point (and measuring the signal at that point concurrently with the signal analyser to verify power and frequency). Once verified the sample probe will be removed and replaced with an item of interest, whose response to that RF signal will be observed. Confinement or enclosure of the test articles will not be possible. Testing likely to occur, in part, in an outdoors energetics test bunker.

Total value (estimated)

- £24,000 excluding VAT

- £30,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 31 March 2026 to 31 March 2027
- 1 year, 1 day

Main procurement category

Goods

CPV classifications

- 32000000 - Radio, television, communication, telecommunication and related equipment
- 38000000 - Laboratory, optical and precision equipments (excl. glasses)
