The Scottish Ministers, Marine Directorate has a requirement for an emergency dry docking to allow rudder removal and shaft withdrawal for renewal of stern seal housing.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- Extreme urgency brought about by events unforeseeable for the contracting authority

Explanation:

During the vessel's scheduled docking period, Marine Directorate became aware of a significant and unforeseeable defect in the replacement tail-shaft seal housing supplied by manufacturer. Although the component had been ordered and supplied in good faith, it was only once the original housing was removed and inspected on 29 October 2025 that it became clear the supplied unit was the wrong configuration. A replacement part was ordered from Japan but due to pressure of having to leave the dry dock, a temporary fix was arranged. The temporary fix was unsuccessful and is causing oil leakage. This requires the vessel to be dry docked again to avoid potential oil leakage, breaching environmental regulations, risk of damage to the tail-shaft bearings and stern-tube system and loss of class compliance if the issue is not addressed promptly.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract

Contract No

CASE/693109

A contract/lot is awarded: Yes
