Planning

Masks, Gowns, Visors, PAPRs & Associated Consumables 2027

SUPPLY CHAIN COORDINATION LIMITED

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-080603

Procurement identifier (OCID): ocds-h6vhtk-05f07e ([view related notices](#))

Published 8 December 2025, 1:07pm

Scope

Reference

Project_1678

Description

The scope of this framework includes the supply of single-use healthcare personal protective equipment (PPE) and associated consumables for NHS clinical settings, including but not limited to:

Facemasks (Type IIR surgical masks, FFP3 respirators)

Gowns (category III isolation gowns, dignity gowns)

Eye Protection (full-face visors)

Powered Air-Purifying Respirators (PAPRs) and accessories

Fit Testing Equipment (qualitative and quantitative kits)

Cape Hood Type PB 6B

We seek solutions that:

Provide effective infection prevention and control in healthcare environments, meeting relevant legislative standards for Medical Devices and/or PPE regulations where relevant.

Ensure resilience and scalability, including surge capacity for public health emergencies and dynamic stock rotation of pandemic related stockpiling.

Support a nationally coordinated stocked supply strategy, ensuring consistent availability of strategic PPE items, across the NHS.

Simplify product ranges to those frequently purchased/required for the NHS, supported with robust clinical evidence, rationalising suppliers and product ranges to improve efficiency and resilience.

Embed sustainability and ethical sourcing, including carbon reduction initiatives and compliance with labour standards.

Address high-risk modern slavery concerns, requiring suppliers to demonstrate robust due diligence and independent third-party audits of their supply chains.

Offer value for money, with periodic reopening of competition across Lots to aggregate purchasing nationally for committed annual volumes and enable continuous improvement.

Provides transparency and clarity on product classification/type and intended use for protection, to reduce risk of misapplication.

Offer innovation, demonstrating how products support value based procurement through whole life cost, social value, efficiency, patient and staff outcomes, supply chain and the support for adoption.

Suppliers should demonstrate how their proposals achieve these outcomes, including approaches to resilience, sustainability, and ethical compliance.

Engagement

Engagement deadline

25 March 2026

Engagement process description

We are seeking to engage with interested suppliers who can supply the Goods detailed in the procurement description. Interested suppliers can express interest in the opportunity using the following link:

PORTAL ACCESS

-Login with URL <https://nhssupplychain.app.jaggaer.com//>

-Click on "SQs Open to All Suppliers" and search for the title of the procurement: SQ_637
- Masks, Gowns, Visors, PAPRs & Associated Consumables 2027

EXPRESSION OF INTEREST

- Click on the 'Response Form' tab.

-Answer the question in the Qualification Envelope at 1.1.1

-Click 'submit response'.

On receipt of an expression of interest, the Authority will issue the Supplier with a request for information (RFI) document. IMPORTANT NOTE: The RFI document and any further communication in regards of this PME activity only, will be issued via email from email address Surgical.PPE@supplychain.nhs.uk. Please ensure you monitor your emails for correspondence from this email address.

The RFI document details the full product list of the products in-scope of this intended procurement activity and requests information from interested suppliers that will support the Authority in developing its approach to the procurement.

The RFI requests information about the interested supplier(s): (1) product range information and corresponding specifications and conformity documentation, (2) capacity

to perform any eventual contract award, (3) current market information and (4) sustainability - including resource efficiency, use of raw materials, packaging, carbon reduction, disposal/recycling and labour standards.

All responses to the RFI must be submitted to the email address as received from (Surgical.PPE@supplychain.nhs.uk) by no later than 16:00hrs GMT on 14 January 2026.

On or around 15 January 2026, following earlier engagement activities, the drafted product listing and product specification will be circulated for feedback from interested participants. All feedback must be sent to the email address Surgical.PPE@supplychain.nhs.uk by no later than 16:00hrs GMT on 11 February 2026. The Authority will then review the feedback and if there are amendments, further circulation of amended specifications may take place. If there is further circulation, all feedback must be received by no later than 16:00hrs GMT on 12 March 2026.

This framework also introduces new products that have not previously been supplied by NHS Supply Chain. We are therefore hosting an engagement session for PAPR manufacturers/distributors between 3-4 February 2026 where Suppliers can request meetings of no longer than 1 hour 45 minutes with the Clinical and Category Team to demo their PAPR product offer (it is hoped with voice of the customer, NHS customer and patient representation), before then presenting the efficiency and effectiveness savings (both financial and operationally) associated with product adoption and implementation with NHS customers. It is intended that this covers, but is not limited to: saving opportunities, packaging, disposal, productivity improvements, patient experience, staff safety, reducing health inequalities, circular economy, managing obsolescence risks, ease of use, aftercare.

There will also be an opportunity for Cape Hood manufacturers/distributors and quantitative fit testing manufacturers/distributors to demonstrate their products, and highlight any specific aspects of the product specification and considerations.

All suppliers need to request these meetings by emailing Surgical.PPE@supplychain.nhs.uk no later than 16:00 GMT on 16 January 2026.

To also support and conclude our early engagement activity, we are pleased to invite you to a webinar, where we aim to share our strategic intent, with the intention to invite feedback from key suppliers during this session.

The details are as follows:

Date: 25 February 2026

Time: 14:00hrs

Duration: 2 hours

Platform: <https://attendee.gotowebinar.com/register/51609639964065472912>

During this session, we will cover the following topics:

1. Tender Overview: Overview of the products in scope and our commercial aims and objectives for this framework renewal process.
2. Specification Overview: Summarise the key specifications and product in scope.
3. Commercial Drivers: Understanding the core factors shaping the framework renewal and how we can leverage best value for NHS customers.
4. Overview of the Procurement Procedure, Conditions of Participation & Award Criteria: An overview of the proposed tender process, sustainability criteria and expectations in the tender process.
5. Timescales: An outline of critical dates and timelines for the renewal process.

This is a great opportunity for you to feedback and provide industry intelligence that will inform the procurement approach. Equally, it is an opportunity to clarify any questions you may have and ensure that all suppliers are aligned with the upcoming changes.

There is no guarantee that a formal procurement process will be launched as a result of this early market engagement exercise, nor that any contract(s) will be placed. No remuneration or compensation etc will be paid to organisations who take part in this early market engagement exercise. Suppliers should take part in this process only on the basis that they fully understand and accept this position.

Participation

Particular suitability

- Small and medium-sized enterprises (SME)
- Voluntary, community and social enterprises (VCSE)

Submission

Publication date of tender notice (estimated)

2 June 2026
