Description

The Council will procure this contract using the Open Procedure as defined in the Procurement Act 2023

The Waste Disposal Authority (WDA), Hertfordshire County Council, is responsible for arranging the disposal of all waste collected by Hertfordshire Waste Collection Authorities (WCAs), under their duties and powers defined in the Environmental Protection Act 1990, along with waste collected at Household Waste Recycling Centres (HWRCs). Description of risks to contract performance

The Contract will be based on the Council's standard terms.

In February 2025 the UK Government formally invited Hertfordshire County Council (the "Council") and the various district and borough Councils of Hertfordshire to develop proposals for local government reorganisation in Hertfordshire which is likely to result in the current two-tier system of local government being reorganised into a single tier of local government with one or more unitary councils for the whole of the Hertfordshire area. If implemented, local government reorganisation is currently expected to take effect in April 2028 and, on that date, the existing two-tier councils will be dissolved and replaced by one or more new unitary authorities. Existing contracts held by the Council and the district and borough Councils of Hertfordshire are expected to transfer to their successor authorities on vesting day in accordance with the Local Government and Public Involvement in Health Act 2007 and the Local Government (Structural Changes) (Transfer of Functions, Property, Rights and Liabilities) Regulations 2008. These reforms will be subject to a decision of the Secretary of State and could be subject to change at any time.

As these reforms may occur during the term of this contract and result in changes to the form, structure, size and shape of local government in Hertfordshire, they are a known risk to the Council within the meaning of paragraph 6, Schedule 8 of the Procurement Act 2023 (Act) in that the reforms could jeopardise the satisfactory performance of the contract but because the nature and extent of the reforms are presently unknown, it is not possible to address the risks in the contract. If these risks materialise, the contract may

need to be modified under paragraph 5 of Schedule 8 of the Act. Such modification could include, but not be limited to, the need to replace the contracting authority with a successor public authority and/or vary the structure, scope, nature and/or geographical location/boundary within which the contract is delivered.

Tenderers should note that any variation(s) to the terms and conditions of the contract will be made in accordance with its terms
