Scope

Description

Framework for locally delivered Workforce Systems which seeks to continue to support the NHS Long Term Plan and People Digital Plan by providing a route to market for all software systems and digital solutions in use, to support the management, deployment and development of jobs and staff and associated reporting and analytics.

Commercial tool

Establishes an open framework

A series of frameworks with substantially the same terms. Awarded suppliers are carried over and new suppliers can bid.

Lot a2iSr000005WjrxIAC. Workforce Technology Systems

Description

General Requirements "The delivery of workforce specific software" The scope of this lot shall initially include; • Off the shelf systems and software (including general and mobile applications ("Apps")) • Software / App development • The development of systems / apps necessary to support their utilisation. • Standardisation of data flows and associated Application Programming Interfaces ("APIs") relevant to the product. The scope of this lot shall not include; - The ability to provide individual workforce members (People/Staff) - The role of carrying out Occupational Health assessments on individuals - The role of carrying out Clinical or Medical duties under supervision Whilst it is not envisaged that each Service Provider awarded to this lot will be capable of supplying all systems, Customers will have the ability to shortlist the most capable of bidders to provide their requirements. This will be managed through a shortlisting process based on the self-classification of each bidder's software solution(s) and the developmental capabilities of the bidder and the system once deployed. This lot is open to original equipment manufacturers only. Some example types of workforce software available under this lot are: • E-recruitment, employment checks and onboarding • Occupational Health • Case Management, including wellbeing • Wage Advance • Expenses • Rostering • Job Planning • Junior Doctor Module • Scheduling • Temporary Staffing • Learning Management Systems • Appraisal and revalidation • Performance Management • Succession Planning • Clinical Supervision Additionally, any other workforce software which can be described as "Workforce Technology" may be considered here.
