Description

This contract will support the Government of the Pitcairn Islands' ambition to develop a coastal walkway(s) to enhance local livelihoods and promote the island's MPA. The MMO, under the Blue Belt Programme, requires the appointed supplier to research and assess the feasibility of the proposed walkway(s) through both technical and community-based investigation. The output will be a high-level feasibility report that:

Establishes if development of a coastal walkway is possible

Identifies a potential route and basic concept design

Provides a stakeholder engagement summary

Highlights potential opportunities and challenges associated with development of a coastal walkway on Pitcairn Island

Estimates high-level development costs of the proposed walkway(s)
