Single supplier - technical reasons

Alstom Engineering and Services Limited was the Original Equipment Manufacturer for the Class 701 rolling stock. No supplier other than Alstom Engineering and Services Limited

would be able to take on the performance risk and associated Technical Support and Spares Supply Agreement obligations for the fleet of Class 701 trains during the train introduction

and warranty period. There is therefore an absence of competition for technical reasons and there are therefore no reasonable alternatives to the supply provided by Alstom Engineering and Services Limited.
