The South West Police Procurement Service, on behalf of Avon and Somerset and Dorset Police, are currently undertaking early market engagement and considering various route to market options in order to run a successful procurement process for their future

Servicing and Maintenance of their generators.

The requirement includes annual and interim servicing, load bank testing and condition surveys of multiple generators situated in locations across the South West. In addition to this, there will be maintenance and reactive works, plus an emergency call out service to ensure the continual supply of essential power. There may also be a requirement for monthly checks to be run on the generators.

SWPPS wish to invite potential suppliers who may be interested in assisting with this early market engagement to answer a number of specific questions and then, an opportunity to meet with SWPPS (via Teams) to discuss their responses.

The market engagement is to consult with the wider market place to share our requirements and gather information whilst also providing information on our current position. We will be seeking input from the supply market to inform our requirements, to help formulate our specification for the services and help identify routes to market.
