This notice has been edited. The [previous version](#) is still available.

The submission deadline has been extended to 9 January 2026, at 10:00 am, and the enquiry deadline to 30 December 2025, at 17:00.

Scope

Reference

FA2367

Description

This procurement is for the supply and commissioning of sludge tanks, digesters, other associated tanks, roofs, and related items at various wastewater treatment sites.

Target Sites

The procurement will cover purchase, installation and commissioning of new sludge tanks, digesters, and other associated tanks and roofs and associated items.

Objectives

- **Compliance:** Ensure compliance with legislation, improve the environmental impact of the STW and provide infrastructure which is fit for purpose.
- **Commercial Value:** Optimise the material and delivery solution to maximise commercial efficiencies for Thames Water
- **Futureproofing:** Implement a framework which enables Thames Water to be able to secure the capacity it requires for future programmes of works

Procurement Approach: A competitive tender process will be undertaken to appoint a supplier(s) capable of delivering the required scope. The strategy favours a supplier who can streamline delivery, ensure consistency, and maximise commercial and operational benefits.

Procurement Timeline Considerations: The procurement timeline is currently under review due to strategic and regulatory reassessments at certain sites. Specifically:

- A study evaluating the requirements to meet the Environment Agency IED requirements is ongoing, with outcomes expected later in the year. These findings will inform final scope and procurement readiness

Expected Outcomes

- Improved asset reliability and operational performance
- Enhanced alignment with environmental and regulatory objectives
- Commercial efficiencies through strategic sourcing and standardisation

Please note that that deadline for asking for access to the PSQ & submitting of the PSQ is

22 December 2025, 10 am.

Competitive flexible procedure description

The procurement will follow a Competitive Flexible Procedure in line with the Procurement Act 2023. The process will include multiple stages, with opportunities for clarification, negotiation, and refinement of award criteria before final contract award.

Stage 1: Tender Notice Publication

- The process begins with the publication of the Contract Notice on the Find a Tender Service (FTS)
- This will outline the scope of requirements, procurement stages, and timelines

Stage 2: Pre-Specific Questionnaire (PSQ)

- PSQ Publication: The PSQ will be published alongside the contract notice
- Supplier Response: Suppliers will complete and submit the PSQ by the stated deadline
- Clarification Period: A defined window will allow suppliers to raise queries and Thames Water to provide clarifications
- Evaluation: PSQ responses will be assessed on a pass/fail and weighted basis against mandatory criteria
- Outcome: Successful suppliers will be shortlisted and invited to the next stage

Stage 3: Preliminary Tender Submission

- Issue of Documents: Shortlisted suppliers will receive the full information pack
- Clarification: Suppliers submit any clarification questions to the tender. TW will answer
- Submissions: Suppliers submit bid submissions (technical and commercial proposals)
- Clarification and Questions: TW submit clarifications and questions to the supplier responses
- Evaluation: Submissions are assessed against published criteria

Stage 4: Negotiation Stage

- Shortlisted suppliers will receive invitations to negotiate and further information about the process
- Negotiation and Refinement: Negotiations with suppliers to refine solutions and optimise value
- Updated Submissions: Suppliers to submit revised bids following negotiation rounds

Stage 5: Final Evaluation and Selection

- Evaluation: Final submissions are evaluated against weighted criteria

Stage 6: Contract Award

- Notification: Successful and unsuccessful suppliers will be informed in writing
- Standstill Period: A mandatory standstill period will apply before contract signature
- Contract Execution: Following standstill, the contract will be awarded and signed
